RENEWED ACTIVITY OF ARMIES.

Detailed List of the Wounded and Sick in Russian Hospitals—To Cut Off Vladivostok Seems To Be the Japanese Program.

[illegible]s Pressing Russians.

[illegible]ersburg, May 9.—Interest is [illegible]ll directed to Manchuria, the [illegible]w in the front indicating that [illegible]rshal Oyama is pressing Gen- [illegible]levitch's advance posts east [illegible]st of the railroad offensive [illegible]t. The Russians are offering resistance and are falling back their first line of defense.

The Russian advance post covers a [illegible]t of about 100 miles, extending [illegible]n Singtmantsu on the Liao river [illegible] southeasterly direction, across [illegible] railroad above Changtu, to the [illegible]nd rin road, leading to Kirwih, to [illegible]amar pass, about 70 miles due east of Tie Pass. The Russian cavalry protect both wings, small bodies being probably beyond the Liao ring in Mongolia to guard against a surprise turning movement in that direction.

Experts believe, however, that Oyama's purpose is to thrust in front the east, turn Kirin and interpose himself between Harbin and Vladivostok, preparatory to the investment of the latter place. Linevitch's disposition seems especially taken to meet such a plan.

British Press Criticises France.

Paris, May 9.—The critical tone of the British press concerning France's alleged breaches of neutrality in Indo-China brought out an emphatic general statement today from the foreign office that the acusations are unfounded. An official said:

"It is universally known that the Japanese intelligence department is exceptionally efficient. Therefore, if various specific breeches of netrality really exist the Japanese government would have presented specific charges to the French government. So far, however, Japan's official action has been confined to requesting France to exercise strict neutrality.

"She has not made any specific charges nor have any specific acts of violation of neutrality yet been brought to our attention. The Japanese government asked in an amicable spirit that we observe neutrality and we answered that we had done and are doing everything possible to that end. The reports to the contrary we believe to be misrepresentations."

RUDOLPH PAYS DEATH PENALTY

For the Killing of Detective Schumacher in January, 1903.

Union, Mo., May 9.—The crime for which William Rudolph was executed today was in participation with George Collins, who was hanged last year, in the killing of Detective Chas. Schumacher of St. Louis, at Rudolph's home, near Stanton on January 25, 1903.

One month previously the bank here had been robbed, and the robbers made their escape by firing at the citizens who discovered them at work. After unsuccessful searches by posses Detective Schumacher was assigned to make a search for the robber, and his suspicions were directed toward William Rudolph.

Disguised as a hunter Schumacher visited the Rudolph home, situated in an isolated section and surrounded by dense forests, and as a result of the visit he caused a warrant on the charge of bank robbery to be issued for Rudolph and an unknown man living at the Rudolph house.

Two days later, accompanied by deputies, Schmacher attempted to serve the warrant. The house appeared deserted, but the officers proceeded to the front door and looked in the windows.

Without warning one of the side doors swung open and Rudolph and Collins, armed with revolvers, jumped in to the yard and opened fire. Schumacher was instantly killed and after a running fight, the deputies were put to flight but uninjured.

Rudolph and Collins fled, and were captured at Hartford, Conn., Collins' native town, on March 1, 1903.

To Improve Trade Relations.

New York, May 9.—A dozen prominent shipping firms in New York interested in the export and import trade with Argentina, Uruguay and Paraguay have taken steps to launch a movement looking to the formation of an association to be called "The River Plate association." The object will be to aid and assist by organization and mutual co-operation the healthy growth and development of export and import trade between the United States and River Plate countries. Co-operation will be asked from all those interested in trade with Argentina, Paraguay and Uruguay.

Tobacco King Near Death.

Durham, N. C., May 9.—Unless there is a material change in the condition of Washington Duke, the founder of the big Duke Tobacco Manufacturing company, now one of the principal branches of the American Tobacco company, he cannot live very long. This afternoon he began to sink, and is growing weaker. He is over 84 years of age, and his feebleness was accentuated by a fall some months ago, which broke a limb and confined him to his room. Mr. Duke's fortune is estimated at several millions.

Minister Bowen Arrives In New York.

New York, May 9.—Herbert W. Bowen, American minister to Venezuela arrived here today on the steamship Philadelphia. He said he would say nothing on Venezuelan affairs until he had reported at Washington. He inquired as to the present status of the Loomis charges, but declined to discuss the matter. He said he probably would go to Washington tomorrow.

NAN PATTERSON'S LIFE THREATENED

Her Mother Receives a Letter Evidently From a Crank.

BAIL IS ASKED FOR ACTRESS

Application Is Made by Attorneys for Her Freedom With or Without Bond. It Is Stated that Any Sum Asked Can Be Made.

New York, May 9.—Lawyers representing Nan Patterson have made an appointment to hold a conference with District Attorney Jerome late today concerning the release of Miss Patterson on bail or without it.

Counsel for J. Morgan Smith and his wife Julia appeared in the court of General sessions today and asked for an order directing the district attorney to resubmit the case of conspiracy against his client to the grand jury. The assistant district attorney

NAN PATTERSON.

at first asked for a similar order, and then opposed it. Judge Foster took the matter under advisement.

Lawyer Abraham Levy of Miss Patterson's counsel, received a letter which had been sent in the mail to Mrs. J. B. Patterson, Nan Patterson's mother in Washington, D. C., in which Miss Patterson's life was threatened. The letter says in part:

"I am sorry to cause you some pain, but you will not see Nan. Although she cheated justice of the law, she has more to deal with, and she will never go far away from the Tombs. I am the victim of another, a woman, as your daughter, and not only has my money gone, but I am slowly dying. Wednesday night if the jury had acquitted Nan I could have shot her as she left the Tombs. If she was convicted, I could have committed suicide as I have wished to for the last ten months. But my name will be famous yet as a lover of justice. The American people shall know that one man had the courage to avenge Young's murder. I write this so you will know that am in no way connected with Young's friend. Yours in death, Armeddi Beaupartar."

Lawyer Levy said that if the letter had not been written by a crank he would regard it as important. He added that it evidently was written by a man who knew the name of Nan Patterson's father who has been known throughout the trial as "J Randolph Patterson," but whose name is John Bartlett Patterson.

Waco, Tex., May 9.—Heavy rains last night have again filled rivers and streams in central Texas to overflowing. Brazos river has reached a stage of 39 feet here and continues to rise. A disastrous overflow at the present time would damage thousands of acres of growing cotton and corn.

Wednesday afternoon from 2 to 9 the delegates and local Odd Fellows will assemble at Oxford Lake park, where a nice barbecue will be served at 5 o'clock.

FEDERAL WARDEN WILL REMAIN

Head Officer of Atlanta's Federal Prison Will Not Resign.

Atlanta, May 9.—A dispatch received from Washington states that Warden William H. Meyer, of the federal prison, who, a short time ago, sent in his resignation, has, at the request of the officials of the department of justice, reconsidered his action and will remain at the head of the big penal institution in south Atlanta.

Mr. Meyer's resignation was on account of certain personal interest. The officials in Washington, according to a news dispatch, were afraid that his resignation might have been for some reason of finding his present position an unpleasant one. Immediately two officials were sent here to investigate the matter and also to ask Warden Meyer to reconsider his action. The dispatch received last night stated that he had reconsidered.

Engineer Cremated in Wreck.

Houston, Tex., May 9.—A Galveston, Houston and Northern passenger train coming from Galveston left the track at a curve near Harrisburg, the engine turning upside down and taking all the coaches off. Engineer Frank Cox was cremated under his engine; Fireman Conway is missing and it is believed that he also was burned. So far as con be learned, none of the far as can be learned, but a number of them were injured and were brought to the city on another train, which makes it impossible to get their names at this time.

Three Counterfeiters Arrested.

Portsmouth, Va., May 9.—After a vigorous chase that led through several Atlantic coast cities, Secret Services Officer T. E. Land, of Boston, arrested Thomas Brewster, Charles Fairbanks and Robert Black, all of San Francisco, charged with extensive counterfeiting operations. The trio were located in Key West, Fla., but they succeeded in eluding arrest until they reached here. Land followed the accused men all the way to the Atlantic coast, visiting Charleston, S. C., Savannah, Ga., and Wilmington, N. C.

Divorced from Eighth Husband.

New York, May 9.—Mrs. Mary J. Crowther in the supreme court received an absolute divorce from her husband Thomas Crowther, a saloon keeper in West Thirty-fifth street, who was her eighth husband. Four of Mrs. Crowther's former husbands died, and she secured divorces from the other three. She married Crowther June 12, 1901.

A Youthful Grandfather.

Camden, N. J., May 9.—Isaac C. Brown, of West and Clinton streets is a grandfather, although only 36 years old. Brown was married at 17. He is the father of six boys and four girls. A daughter has just been born to his eldest daughter, who is the wife of Edward Nelson and who, like her father, married at 17.

FACTIONS PREPARED FOR HARD STRUGGLE

Both Sides Expect Coming Week To Be a Strenous One.

ROOSEVELT TO VISIT CHICAGO

Wagons Manned by Nonunionists and Guarded by Policemen Move Along Streets Unmolested by Strikers or Their Sympathizers.

Chicago, May 9.—Today, the thirty-first day of the teamsters' strike, found both sides prepared for an even more intense struggle during the week to come—the week in which President Roosevelt is to visit Chicago.

The committee, composed of Prof. Graham Taylor, Towner K. Webster and William C. Boyden, appointed by Mayor Dunne to investigate charges of graft and blackmail on the part of union leaders and of efforts to incite trouble on the part of the employers, has made detailed plans for beginning the inquiry.

The merchants have made plans for more strenuous efforts to bring the recalcitrant team owners into line, and the Federation of Labor, on the other hand, has resolved to seek the indictment of the officials of the Employers' association for this effort, calling it conspiracy.

The strike committee, which was to begin work this afternoon power of subpoena, and all the information it gets will of necessaity be volunteered. The union leaders declare they will submit volumes of testimony bearing on the charges that the employers have fostered the war by aiming to extend the strike through a score of trades.

On the other hand the employers are not enthusiastic over the project, seeing no good that is likely to come out of it, though Chairman Taylor was assured the merchants would do nothing to block the inquiry.

Little trouble was reported at any of the employers' company barns.

Unlike the corresponding time last week, few persons were about the stables. Even the Peabody Coal company, against which there has been a special fight, sent out today caravans of loaded coal wagons without molestation. Police and deputy sheriffs, however, continued to guard all or nearly all vehicles driven by non-union teamsters.

One Life Lost in Shipwreck.

Vineyard Haven, Mass., May 9.—With the arrival here today of the tug Patience came news of one of the most remarkable marine disasters in the history of Vineyard Sound shipping. The Joy line steamer Aransas, bound from Boston for New York, was struck by the coal-laden barge Glendower, in tow from Philadelphia for Boston, and sunk in less than 15 minutes, but out of 47 passengers and a crew of 29 on the steamer, most of whom were asleep at the time of the collision, only one life was lost. Miss Mamie Kellar, 27 years of age, residence unknown, was missing when the roll of passengers was called.

Stowaways Escape from Ship.

New York, May 9.—As the Italian liner Citta di Napoli, from the Mediterranean was about to be docked at the Italian piers at the foot of Thirty-fourth street, in the North river, two young men leaped to the port railing of the liner and jumped into the water. Both were expert swimmers, and in less than ten minutes they had reached the shore. Scrambling to the street they quickly disappeared. Both were stowaways, and unless they are captured the government will impose a fine of $1,000 on the line for permitting their escape.

Firebugs Busy in Pennsylvania.

Titusville, Pa., May 9.—Fifteen fires within three weeks have led to the general belief that firebugs are at work in this city. A special meeting of the city councils has offered a reward of $500 for the apprehension of the culprits.

IT ALWAYS HELPS

An ailment like consumption that has been months and years getting a foothold cannot be relieved in a week or day. Scott's Emulsion will always afford relief and often cure, but not over night. The consistent use of Scott's Emulsion will positively help the consumptive at any stage of the disease. We guarantee nothing beyond this, but we know that right living and Scott's Emulsion have done more to cure consumption than anything else.

IRISH STORIES.

Some Droll Answers and Ready Wit From Hotel Waiters.

Of stories of Irish hospitality Mr. Macready had a full supply; also of hotel attendants and the peasantry. On one occasion he asked the girl in attendance for poached eggs. She looked a bit nonplused at first, but after a little hesitation replied, "There are no poached eggs in the place, sir, but I think I could get you some poached salmon."

In a poor little cottage of two rooms he saw a married couple and seven children. Hearing a baby cry, he asked to see it and explained that he took an interest in babies, having one at home. The infant was produced for inspection, and the mother asked proudly, "Is yours as big as that, sir?" To which he replied, "I think it is a little bigger." Instantly the instincts of the mother were roused, and, tossing her head, she said: "So well it might be. That's only half of ours; the other half is with God. We had twins."

At a hotel one of the party asked, "Have you got any celery, waiter?" "No, sir," was the significant answer. "I relies on me chances." That man deserved an extra tip. On another occasion the dinner was especially good and well served. At the conclusion one of the party remarked, "You're an angel, Pat." "I am, sir," assented Pat, "but I fly low."—London Telegraph.

"Thou" and "You" Abroad.

The only safe rule for the Englishman abroad is to stick to "you" in French or German. "Tutoiement," or "theeing and thouing," would imply a deliberate intention to insult, a patronizing assumption of indisputable superiority to the person addressed or such familiarity as is proper only between lovers, parents and children and intimate friends. At one time every individual was "thou," but after flatterers began to call Roman emperors "you" (monarchs remain "we" to this day) the polite plural spread until in Louis XIV.'s time only servants were "thou" in France. The restoration of "thou" as a pronoun of familiar endearment is due to Rousseau and the revolution. It has survived throughout in poetry and in addressing the Deity.—London Chronicle.

Do Not be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by J. W. McCollum & Co.

How Starfish Are Killed.

It has been stated that the oyster's deadly enemy, the starfish, has been most successfully subdued in the Long Island beds by putting down within its reach an instrument very much like a long handled house mop. As soon as touched by it the starfish invariably grasps the strands and can be captured and destroyed by the thousand, for it will not let go until it has been held out of water long enough to secure the impossibility of its return.

Wooed, Won and Wedded.

The Mexico (Mo.) Ledger thinks merchants should be more prompt in presenting their accounts. A druggist of that place recently brought a young man in the town a bill two years old, and the first part of the bill was a charge for a box of chocolates and on the other end was a charge for one nursing bottle. How time does fly!

JACK TAR'S GIN.

The Way Liquor Was Smuggled Aboard One of Our Warships.

While on the China station in 1886 the master at arms' mess on the United States steamer Omaha was in a drunken and demoralized condition for several weeks. Try as he might the captain could not discover where the liquor was coming from. Finally all shore liberty was stopped, but the drunkenness did not cease. On the morning of sailing while the executive officer was near the port gangway watching the taking in of stores he asked what was in a large demijohn that came over the side with boxes and packages. He was told that it was vinegar. He pulled the cork and sniffed it. It was vinegar. Then his attention was attracted by the tag marked "master at arms' mess," and, remarking that the mess must be using vinegar for bathing, as he had already seen the same demijohn brought aboard twice within that week, he ordered the officer of the deck to inspect it carefully and taste it. He did; it was vinegar. That officer, however, noticed that the jug had an unusually long neck. He poured out a small quantity of vinegar and discovered an extra cork in the bottom of the neck. Below that were three gallons of gin. The vinegar between the corks had served to deceive the inspecting officer at the gangway for a month.—Chicago News.

Men and Heads.

"What kind of head do you like on a man?" was asked of the president of a corporation employing several thousand hands. He replied: "It depends altogether on what I want the head to do. Each department of our business requires a different shape of head. We don't look for veneration, benevolence, generosity, sublimity, conscientiousness, acquisitiveness or ideality. Take them all in all, I think I'd rather have around me men of combativeness, aggressiveness, hope, spirit, constructiveness. I try to pick out such. I should like every man in my employ to have at least two-thirds of his head in front of his ears. Men with big back heads are overweighted with intellect; too slow to keep up with the age."—New York Press.

Belgium as a Lace Center.

Belgium has long been an important center of the lace industry.

The art of making lace spread through Flanders from France and Italy in the middle centuries owing to the splendid qualities of Belgian flax, and it was there that the wonderful duchesse lace was originated. Much of the so called Spanish lace—black, with its large roses and trailing design—was also made in Flanders, and for the last hundred years the cities of Bruges, Ghent and Ypres have put on the market the three best grades of the modern valenciennes lace, each city having a distinct variation in design due to the differences in workmanship gradually introduced in the course of years in the three localities.

He Won Easily.

Mr. Subbubs—You know you're only talking nonsense. What do you want a couple of new gowns for? Mrs. Subbubs—Why, Mrs. Playne has got a dozen gowns, all of them much handsomer than the two or three that I've got. Mr. Subbubs—Yes, I know. But a homely woman like that needs rich attire in order to attract attention from her face. You don't.—Liverpool Mercury.

Indignation.

"Say, boss," began the beggar, "I'm outer work an' "—

"See here," interrupted Goodart, "I gave you 50 cents last week."

"Well, yer've earned more since, ain't yer?"—Exchange.

Not His Privilege.

Employer (to presumptuous clerk)—Are you the boss here, I'd like to know? Clerk—No, sir, but— Employer—Well, don't talk like a fool then.—Boston Commercial Bulletin.

GOVERNOR SIGNED THE CHARTER BILL

The People Generally Are Well Pleased With the Measure.

VOTE WAS STRONG FOR BILL

Business Men Look Upon It As a Boon to the City—A Prospect of Making More Rapid Advancement Over the City.

There was a feeling of much gratification expressed by numerous citizens on our streets yesterday over the news the telegraph conveyed to this city.

The cause of the feeling was the announcement that Mayor Thomas had received a message from Senator McCreary at Tallahassee, conveying the glad news that the Governor had signed the new charter bill and it was now a law.

One prominent business man said that it was the best thing that ever happened for Gainesville, and that we now would have a chance to progress more rapidly than in the past. Others were equally as jubilant.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medcines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at all drug stores; price 50c.

SURTZ'S DIRECTORY ENDORSED

Board of Trade Give Work Official Endorsement—Valuable Book.

At the meeting of the Gainesville Board of Trade, held Monday afternoon, the Directory of the City of Gainesville, Jesse E. Burtz, was given the hearty official endorsement of the Board.

The Board inspected a "dummy," submitted by the compiler, and had no hesitancy in recommending the work to the people of Gainesville as being a good thing for the city, and, inasmuch as the new charter bill has passed and the town has assumed metropolitan airs, an absolute necessity.

The compiler has worked hard and earnestly on this directory for the past seven weeks, and proposes to give the people a work which will be a credit to a city of 10,000 population. The book will be handsomely and substantially bound in cloth, and the workmanship throughout will be first-class. There will be several pages of half-tone views of Gainesville and vicinity.

Growing Aches and Pains.

Mrs. Josie Sumner, Bremond, Tex., writes, April 15, 1902. "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c, 50c and $1.00. Sold by W. M. Johnson, Gainesville, Fla., and J. C. Bishop, Alachua, Fla.

Death of Mrs. Horace McIntyre.

It builds up the worn out tissues and restores health and vigor. "I was troubled with kidney complaint for about two years," writes A. H. Davis of Mt. Sterling, Iowa, "but two bottles of Foley's Kidney Cure effected a permanent cure." Sold by J. W. McCollum & Co.

The Jacksonville baseball team is keeping up the winning streak with wonderful regularity, and it is largely due to the management of the men by Mr. Pender they are doing so well. There is no game like the National game, and the fact that it gains favor each year lies in the fact that those who are at its head insist on keeping it the cleanest of all sports—a game that all enjoy seeing—if they have one note of Yankee Doodle in their make-up.

Some miscreant threw a bomb into the crowd at Chicago during the strike a few days ago. There is no law against striking, but when such contemptible anarchists commence throwing bombs, there should be a stiff law brought to bear on them. There should be but a few moments set aside for such characters to make their peace with the Omnipotent one.

The manufacturers of the Oldsmobile at Detroit will send two standard runabouts across the continent from New York City overland to the Lewis & Clark exposition at Portland, Oregon. The start will be made from New York May 8 and the run is timed to reach Portland for the opening of the good roads convention there June 21. The trip is being made in the interests of good roads.

The American Sportmens' Association will make an effort to protect the game fish in Indian river from the men who make big catches and throw away what they don't care for.

The way the Russian fleet does go for the innocent little fishing smacks caught at sea alone, is a caution. And yet this same Russian pirate crowd is looking for sympathy.

FLAG DAY.

On the 14th day of June, 1777, Congress enacted: "That the flag of the thirteen United States be thirteen stripes, alternate red and white that the Union be thirteen stars, white, in a blue field, representing a new constellation." The number of the stripes having been increased by the admission of new States, the possibilities of the nation's future development dawned upon our fathers, and the original thirteen stripes were unchangeably restored by act of Congress on April 4, 1818, when it was enacted: "That from and after the fourth day of July next, the flag of the United States be thirteen horizontal stripes, alternate red and white; that the Union be twenty stars, white in a blue field, and that on the admission of a new State into the Union, one star be added to the Union of the flag; and such addition take effect on the fourth day of July next succeeding such admission." Since 1818 twenty stars or sovereign States have been added to the Union, making forty-five in all.

The day was not generally observed for many years, and the motives that prompted its observance during a political campaign some years ago did not materially help the real merits of the event.

While it is endorsed by nearly all people of the land, it was made a day of observance from other than patriotic devotion to the flag, and while every citizen desires to see Old Glory wave from every flag pole, from the country school to the National Capitol, the idea that it was first aroused throughout the land to aid a trust to contribute to a campaign fund, although a clever move, has been looked upon by many as a most desperate method to accomplish political ends.

LEGISLATIVE NOTES.

The committee appointed by the Legislature to inspect the school for the deaf, dumb and blind at St. Augustine, has recommended an appropriation of $100,000 to that worthy institution.

Governor Broward's special message on the drainage of swamp lands and the Everglades, is a very exhaustive and lengthy document, covering fully the situation from the creation of the ...tees of the internal improvement fund in 1855 to the present day. The message recommends the adoption of a constitutional amendment and a statute authorizing the carrying of the work of drainage into effect.

Senator Hudson's insurance bill will probably have strong opposition among the insurance companies of the country, and they can certainly put up a strong lobby.

The governor of Louisiana has offered $1,500 reward for the arrest and conviction of the mob that shot to death Dick Craighead of Homer.

The Japanese battleship Asahi may be all right in some places, but many a man has been called with ace high when it has proved disastrous.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

WORMS

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I "had 'em"—yes—a wiggling, squirming mass left me. Judge our doctor's surprise when I showed him thirty feet, and in another day the remainder (about the same length) of a tapeworm that had been sapping my vitality for years. I have enjoyed the best of health ever since. I trust this testimonial will appeal to other sufferers."

NORTH GAINESVILLE ELECTS OFFICERS

Rousing Meeting Held in North Gainesville Tuesday Night.

WILL INCORPORATE OR BUST

There Are Determined Heads in Our Thriving Suburb Who Are Willing to Fight to the End. And They Met And Elected Their Ticket.

There was something doing in North Gainesville Tuesday night.

A number of the people of that thriving suburb did not appreciate the idea of being included in the Gainesville proposed charter, and resolved to incorporate and make for themselves a little play house, with their own officers. But this scheme, which has been in consideration for some time, will fail to work, since the charter has been enlarged, taking in a great deal of North Gainesville, and everything is easy from now on.

It was not the desire of the people of Gainesville to act selfish in this matter. Realizing that certain things were demanded for Gainesville, and realizing also that it would be necessary to extend the limits in order to extend the power, the people of Gainesville set about to accomplish a method whereby these necessities would become possible. They drafted a resolution of an extension of charter, taking in or extending the corporate limits of the city a mile and a half from the court house square. This proposition was perfectly satisfactory to the people of South, East and West Gainesville, but it did not seem to set well with those residing in North Gainesville—or at least a portion of them. The result was that, the citizens claiming that Gainesville had not treated them rightly in the matter, held a meeting, at which not only the citizens of North Gainesville were present, but representative citizens of Gainesville also. The matter was discussed for all it was worth, and two-thirds of the citizens of North Gainesville were satisfied, but others insisted they were being treated unfairly. They sent representatives to Tallahassee to confer with the Legislature, but it seems that the argument was unavailable, since the charter bill was passed by both Senate and House.

A few of the people of North Gainesville, however, were not satisfied, and decided to incorporate and fight the issue to the end. The result was that a called meeting was held Monday night, and officers were nominated, subject to election by convention Tuesday night.

The meeting was held Tuesday night in North Gainesville Hall. The meeting was called to order by Attorney W. H. Palmer, chairman, and H. S. Graves was elected secretary. Shortly after the meeting began Attorney Palmer excused himself, stating that he had important business which must be attended to, when the meeting was left in the hands of other parties.

C. D. Schafer, Walter McMillan and L. Long were selected as election inspectors, when the ticket was announced and the voters present, seventeen out of seventy-three, began balloting.

There was never a question or motion put to the effect that an incorporation be made. A motion was made to the effect that "this corporation be known and recognized as North Gainesville," but that was the end of it.

The election showed the following: For mayor, H. S. Graves; for clerk, O. B. Bailey; for treasurer, M. Giddings; for marshal, J. D. Dykes; for aldermen, H. J. Bailey, J. J. Frieze, W. S. Campbell, H. C. Roth and Roswell Schafer.

A great many residents of North Gainesville are not in favor of this separate incorporation, as was shown by the fact that only seventeen were present and voted, and of this number it can be shown that some of them are not qualified. The more conservative element of that suburb are of the opinion that it would be the better and wiser plan to join in with Gainesville in the new venture and make this city a municipality that will be recognized and appreciated by the State from one end to the other.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Lobster Mortality High.

A lobster lays thousands of eggs, most of which hatch, but few ever live to grow up. This is not the fault of the mother, for she carries them about with her for nearly a year and with admirable instinct guards them as she does her own life. When the young are set free her duty is done, for they must then shift for themselves. Though hardly larger than mosquitoes, being about one-third of an inch long, the little ones leave their parents on the bottom and swim toward the light—to the surface, where from one to two months, if fortune favors them, they lead a free, roving life. The open sea is a poor nursery for such weaklings, which become the sport of every storm and the prey of numberless hungry mouths. Out of a brood of 10,000 it would be a rare chance for more than one or two lobsters to reach maturity or finally to end their career in the kitchen or the chafing dish.—St. Nicholas.

Imprisoned In the Wind.

Butterflies may be imprisoned and uninjured in the midst of a whirlwind. Gales in a genuine typhoon are so terrible that the stoutest ships can scarcely hope to weather them, but there is a spot at the very center of the storm where something like a dead calm prevails. From the outer edge of the disturbance, which may be 300 miles across, the wind velocity increases toward the center until within a few miles of that point there comes a sudden lull. There the rain ceases and the sky often clears. In this little calm area, which sailors call "the eye of the storm," a group of butterflies has frequently been imprisoned, and their dainty, delicate forms are as safe in this aerial cage as if hovering in sunny meadows, but as helpless as in a collector's bottle.

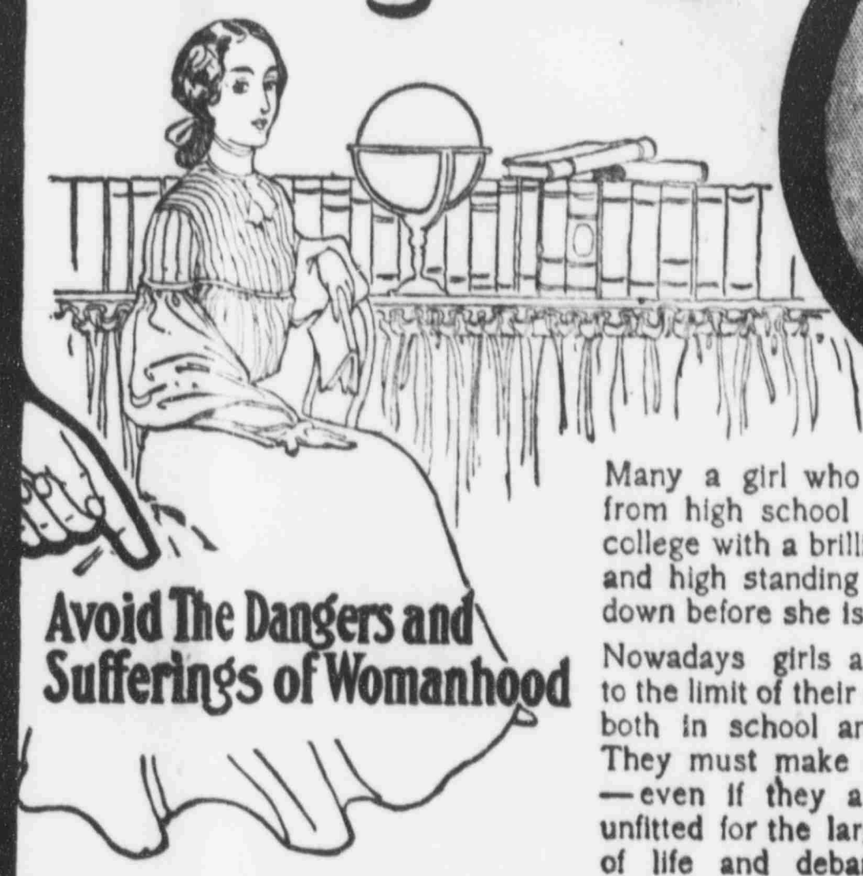
Young Girls



Avoid The Dangers and Sufferings of Womanhood

Many a girl who graduates from high school or female college with a brilliant record and high standing is broken down before she is twenty.

Nowadays girls are pushed to the limit of their endurance both in school and society. They must make a success—even if they are forever unfitted for the larger school of life and debarred from wedded happiness and the bliss of motherhood.

At this time of life, when just entering upon womanhood, nature makes heavy drains upon the vitality, especially at each monthly period,

Lydia E. Pinkham's Vegetable Compound

the most wonderful of all tonic restorative medicines for women, will tide a young girl over this trying time and bring her safely into strong, noble, beautiful womanhood.

Experience of a Beautiful High School Girl

Her First Letter.

MY DEAR MRS. PINKHAM:—I write to see if you can suggest some means to cure me. A little more than a year ago I was sick with menstruation for the first time, and since then I have been sick all the time in some way or other and suffered with painful and irregular menstruation. I went to a summer resort for my health and was doctored all summer, but to no effect. I have not menstruated for two months and thought I would see if you could do me any good. I attend High School and would not like to miss any time if it is possible. MARION BARBER, North Adams, Mass.

Miss Barber writes again after two years

MY DEAR MRS. PINKHAM:

Sometime ago I wrote to you for advice, being troubled with irregular and painful menstruation and womb disease. I began taking Lydia E. Pinkham's Vegetable Compound and Liver Pills and using the Sanative Wash, and I am glad to say I am completely cured and have not had any sickness since. I wish to thank you for your kind advice and shall recommend your medicine to my girl friends. MARION BARBER, 101 Bracewell Ave., North Adams, Mass.

Free Advice for Young Girls

All young girls are earnestly urged to write to Mrs. Pinkham, at Lynn, Mass., for advice. Thousands of women are well, strong, and beautiful to-day because they made a confidant of Mrs. Pinkham and followed her instructions at this critical time of their lives.

Kills Wife; Attempts Suicide.

Augusta, Ga., May 9.—A special to the Herald from Covington says that Lemuel Walker, of Mansfield, shot his wife to death with a shotgun early today while she was asleep. He then made an unsuccessful attempt to commit suicide with the remaining load in the gun, and in a further endeavor to end his life sought to hang himself in the barn with a plow line. He was overpowered by a son. Domestic troubles are alleged to be the cause of the murder and attempted suicide.

A Ghastly Pavement.

Gwandu, a native town in Africa, contains between 10,000 and 15,000 inhabitants and is surrounded by a palisade of poles, the top of every pole being crowned with a human skull. There are six gates, and the approach to each gate is laid with a pavement of human skulls, the tops being the only parts that show above ground. More than 2,000 skulls are used in the pavement leading up to each gate. The pavement is of snowy whiteness, polished to the smoothness of ivory by the daily passage of hundreds of naked feet.

Time and Books.

The economy of saving time is wise, but there is an economy of spending time. In reading, especially, hurry is most wasteful. Reading is the making of thoughts, of ideas, of pictures in the brain. All young photographers know how little is to be made out of an "underexposed plate," but do they understand that there may be such a thing as an underexposed brain? It takes time to make impressions on the mind. If you read too fast, either aloud or to yourself, or skim over your reading, the mind receives poor impressions or none at all.—St. Nicholas.

Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which eased her cough, gave her sleep, and finally cured her." Aged Ex-Slave Tries Suicide.

Battle Creek, Mich., May 9.—Perry Sandford, the oldest negro citizen of this city, an old Kentucky slave, attempted to commit suicide last night at Nichols hospital by cutting his throat with a jackknife. Five months ago Sandford became paralyzed on his right side, and was taken to the hospital. It took him over an hour to open his knife with his left hand and his teeth. He cut a gash four inches long on the left side of his throat, but was discovered in the act by a nurse and was disarmed. He will probably die.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. A Creeping Death.

Blood poison creeps up towards the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c at all drug stores.

Wild Flowers of Alaska.

Up in "green Alaska," as John Burroughs found it, the predominating color of the wild flowers is blue. The wild geranium is blue and tinges the slopes as daisies and buttercups do with us. He speaks of "patches of a most exquisite forgetmenot of pure, delicate blue with yellow center that grew to the height of about a foot. A handful of it looked like something just caught out of the sky above." In another paragraph he speaks of the forgetmenot growing round an Eskimo encampment at Plover bay, within sight of the Siberian coast, that was scarcely an inch high, of deep ultramarine blue, "the deepest, most intense blue I ever saw in a wild flower."

Fish Out of Water.

Many people think that fish when taken out of water die because air has a fatal effect on them. The real reason, however, is that their delicate gill filaments or membranes become dry and stick together, so that no air can can pass between them. Thus they lose the power to imbibe necessary oxygen, and the circulation of their blood stops. The painful gasping of a fish out of water is nature's effort to free the passage through the filaments.

Mr. Grunwald is a highly cultured musician, being a most excellent violin soloist, and during the evening he favored those present with several classical and popular numbers on the king of instruments, being accompanied on the piano by Mrs. Herbert Graves, daughter of the Palmers.

Later dainty refreshments were served those present, and in this respect Mr. and Mrs. Palmer sustained their well-earned reputation as being perfect host and hostess. All enjoyed the occasion to the fullest.
